

SECURITY FOR TRUSTED OPERATIONS

Comprehensive IT security is critical for every single organization. Cofomo helps companies protect networks and data with ironclad solutions designed for secure and efficient operation.

We offer the highest standards of analysis, recommendations, infrastructure, and management.

The background of the top half of the page is a grid of windows, likely from a modern building. In the center of this grid, there is a rectangular inset image showing a large, intense fire or explosion with bright orange and yellow flames against a dark background.

OUR EXPERTISE

From the establishment of information security reference frameworks to on-site security to cybersecurity and cyberresilience, our experts are equipped to implement bespoke solutions to cater to each organization's unique needs.

We implement the best practices needed to properly assess security needs and:

- Analyze and recommend viable solutions
- Develop the best security policies
- Manage cybersecurity

Shared responsibility as trusted partners, suppliers, and third-party cloud service providers

Access

Clearly defined management of access and user rights, while ensuring full control and strengthening access and permissions

Monitoring

Establishment of efficient and immediate detection, monitoring, and reaction to anomalies and unusual events

Software

Reliably sourced software solutions

Portability

Planned migration and distribution of workloads from one cloud to another

02

How we can help

Our service is tailored to our clients' needs and our experts have the qualifications and certifications required to improve IT security to the highest industry standards.

ABOUT COFOMO

Established in 1995, Cofomo is a Canadian leader in information technology (IT) and business consulting services, which translates today into the acceleration of client companies' digital transformation.

Its solutions cover the full range of business needs, including strategy, innovation, agility, intelligence, security, and cloud computing.

Its unique expertise is delivered through flexible on-demand project and talent delivery models.

A team of over 3,000 professionals provides these services to large private and public sector organizations, mostly located in Eastern Canada. This team is supported by a high-performance, lean organization and a state-of-the-art digital ecosystem to communicate with clients, acquire and manage talents and projects, and deliver the full services of the new digital economy.
